

# PROFILE OF

**NED Consultants**

## WHO WE ARE

***NED Consultants is a professional firm of Management Information Systems experts established in Nigeria in 1997, that offers high quality Consulting services to organizations within and outside Nigeria. NED works in partnership with Matiyas. Matiyas is a one-stop solution for complete digital transformation and ERP solution provider for business automation registered in India. These firms jointly work together to alter businesses with technology to amplify their outcomes and reduce efforts . We offer world-class solutions to the small, medium and large organisations. Our consulting and technical expertise provide you with bespoke solutions to Government agencies and business concerns. Our customized enterprise resource planning assures you that there is an optimum deployment of resources which can be monitored on a real-time basis.***

***As digital experts, we provide our esteemed corporate clientele with deep technical insights and the ability to align with the unique needs of modern businesses to achieve industry-specific goals.***

***We offer top-notch solutions to startups, SMEs, and established large enterprises at a reasonable rate. Our customized solutions can be useful for all major sectors including healthcare, manufacturing, oil & gas, services, retail and distribution, non-profit, and public sector. Our scalable ERP solutions are customizable to meet diverse and ever-changing business needs.***

# MISSION STATEMENT

## Implementation Roadmap (8Weeks)

- ✓ **Discover & Design**  
Blueprint & architecture approval
- ✓ **Configure Core ERP**  
Finance, HR, Inventory, CRM
- ✓ **Deploy Advanced Modules**  
Utility Billing, Predictive Maintenance, AI Dashboards
- ✓ **Integrate, Migrate & Train Users**  
Data migration + end-user training sessions
- ✓ **User Acceptance Testing (UAT) → Go-Live → Stabilization**

We understand resistance to ERP systems is a real risk.

Our approach:

- ☐ Executive alignment sessions
- ☐ Departmental champions
- ☐ Role-based training
- ☐ On-site go-live presence
- ☐ Post-launch performance audits

Our pricing model will be:

- ❖ Core Implementation Fee
- ❖ Custom Development Fee
- ❖ AI Enhancement Add-On
- ❖ Infrastructure Advisory
- ❖ Post-Go-Live SLA Support

We emphasize ROI over cost.

Expected ROI Drivers:

- ❖ Reduced revenue leakage
- ❖ Lower maintenance downtime
- ❖ Faster financial reporting
- ❖ Reduced manual errors
- ❖ Improved collection rates
